## ABOUT ME :

I am a BS Computer Science graduate who bridges the gap between technical troubleshooting and creative visual arts. Specializing in graphic design and photography, I am proficient in Adobe Photoshop and am actively expanding my video editing capabilities in Adobe Premiere. I combine an artistic eye with a programmer's logic to deliver high-quality, problem-free digital content.

Created the visual identity for the "South" team during the Harvest Baptist Church Sports Fest. I was responsible for the end-to-end design of the jersey, ensuring the organization's branding (HBC) was prominent while creating a modern, athletic look. The design fostered team spirit and provided a professional visual standard for the event.
